Germanatown, Philada. Jan. 23d 1893

Dear Dr Gallaudet:

Some weeks ago I almost finished writing you a lengthly letter concerning my situation in the Pennsylvania Institution for the Deaf. As it contained matter which I deemed you would prefer not read and which you might not adequately understand at this distance of time and space between us, I concluded to substitute this letter. You will, therefore, I hope, not impute to me the fault of haste nor ^{the} want of judgement in calling your attention to my case. For years I have suffered the tortures of mental agony which lack of recognition, unjust discrimination and shabby treatment engenders in one whose sensibilities are crushed with an iron heel, and whose circumstances forbid resentment. I believed there was relief to be had, and that only in a letter to you; but rather seek your aid and sympathy

I have repeatedly put it off till now, always hoping, but without avail, there would, eventually, be no necessity for such a course.

My first object has been to get a position in some other institution, as my faith has ^{been} closely pinned to Pope's lines:-
"A mouse that sticks to one poor hole
Can never be a mouse of any soul"

My second is to complete a course of practical chemistry, and show some of "the unsophisticated natives" of the Pennsylvania Institution the real stuff that has been smouldering within me.

As to the first object, two years ago I tried to secure a teacher's situation elsewhere, but did not meet with much encouragement, probably because I had not devoted much of my time to making a name by contributing to the periodical relating to the deaf and their education, and probably because I did not give Mr Crouter's name for reference, as I preferred not to have him know my plans for the future.

As to my second aim, chemistry. Well, I do not profess to have made any great strides in that eminently practical and

far-reaching science, and, therefore, do not mean to brag when I speak of the real stuff within me. In one sense I mean ~~I~~ think I have the taste and inclination to give that study a thorough course - at least to such an extent as to make it of practical use - for I still have hopes and aspirations, but unfortunately have been hampered by circumstances quite without my power to overcome. I have quietly studied to some extent such books as Roscoe's Elementary Chemistry and Douglas' Prescott's Qualitative Analysis, both of which, I believe, are much more comprehensive than any similar work on the subject in use at your college.

Now as to my first object -

"Whether 'tis nobler in the mind to suffer
The slings and arrows of outrageous
fortune"

Or to "fly to others that we know not of,"
I prefer the latter course trusting therein
lies "the name of action" and that the
chances would rather favor my aspira-
tions and condition than otherwise - at
least I would be greatly relieved of

a mental strain that has for years burdened
ed me with ignominy and unhappiness

With much respect, and gratitude
for past favors, I am

Yours very truly,
Jerome T. Ellwell

DEPOT ONE MILE FROM HOTEL ON M. & C. G. R. R.

DEAR SIR:—This water has received the highest endorsement from all parts of the country. Below we give only a few of the thousands who, from personal experience, have great faith in its medicinal virtues, and who believe it will do what is claimed for it. In the annual illustrated pamphlet will be found many more certificates and references, and full information on all points:

T. G. Bush, Mobile, Ala.: "I received very great benefit from the use of Tate water (in 1885), and know of no mineral water of greater merit. Such water and such a climate are especially to be recommended to those suffering from dyspepsia, indigestion and all kindred troubles."

Major Campbell Wallace, Atlanta, Ga.: "Of all the springs of Virginia and Tennessee, I consider the 'Tate Epsom' the most wonderful, and the properties of the water the most valuable."

Jno. B. Daniel, Atlanta, Ga.: "We have been selling it for years, and have no hesitation in saying it is the best mineral water with which we are acquainted."

J. R. Binford, Duck Hill, Miss.: "My wife feels that she owes her life to its virtue."

J. H. Field, Columbus, Miss.: "I believe it a specific in malarial and liver troubles."

Wm. J. Thompson, Little Rock, Ark.: "The excellent water, combined with the high elevation and magnificent scenery, render Tate's an excellent family resort, and persons desiring congenial associates, freed from the restraint and style of fashionable watering places, can find none better."

J. M. Studebaker, South Bend, Ind.: "I believe there is no spring in America that contains the healing qualities that Tate Spring does."

Ro. Lapsley, Selma, Ala.: "In no case have I seen any disappointment either in the place as a resort, or in the health-restoring effect of the water."

Judge W. M. Brooks, Birmingham, Ala., came to the spring quite sick with dyspepsia. In two weeks he was quite well.

Thomas Crutchfield, Esq., Chattanooga, Tenn.: "It is without a rival on the continent."

E. L. Greer, Washington, Penn.: "Ship me a barrel of water for a sick lady friend of mine. It saved my life beyond a doubt."

Frank McNulty, Knoxville, Tenn., (late of N. Y.): "I believe Tate water to be the only water in the country that will cure dyspepsia."

Mrs. Gov. A. S. Marks, Winchester, Tenn.: "Its fine shipping qualities make it a blessing to suffering humanity."

C. T. Walker, (Cashier German Bank), Little Rock, Ark.: "The qualities of the water are such that constitute it one of the finest tonics and health restorers I have ever used. It proved very beneficial to every member of my family."

J. H. McAvoy (President Bemis & McAvoy Brewing Co.), Chicago, Ill.: "I have it continually on draught in my house, having become almost a family necessity."

Geo. Bullen (of Geo. Bullen & Co.), Chicago, Ill.: "It is the most pleasant and effective water I have found anywhere, and you can count me among your regular patrons for it."

Dr. J. S. Weatherly, Montgomery, Ala.: "I know of no mineral water in the United States that has the same virtues of this water."

Wm. Fleming, Bradford, Pa.: "I remain, as ever a strong advocate of Tate water in almost every case of derangement of bowels and kidneys."

Geo. Smith (of the Commercial Cotton Press), New Orleans: "I have used the Tate water for the last nine years, and find it retains all its qualities for any period." (M. H. Church, of N. O., endorses in nearly the same language.)

James Swann (of Inman, Swann & Co.), N. Y.: "I have found Tate water of great benefit and superior to many other waters I have used."

Gen. W. H. Jackson, Nashville, Tenn.: "I regard Tate Spring the most delightful summer resort of any that I have visited."

S. M. Inman, Atlanta, Ga.: "The health of my family was greatly benefited in 1883, and I know of no other water in the world in whose medical properties I have so much confidence."

J. S. Carr, Durham, N. C.: "I think it the finest water to be found anywhere."

J. W. Pence, Minneapolis, Minn.: "It is far better than Bethesda."

R. T. Hargrove, Rome, Ga.: "Equal to the best Congress water."

Gen. A. M. West, Holly Springs, Miss.: "It acts positively and directly on the various secretory organs. It stands unsurpassed, in my opinion, by any other American water."

B. C. Adams, Esq., Grenada, Miss., and others: "Clears the complexion."

All our Southern people endorse Tate water for troubles incident to malarial localities."

Senator J. E. Brown, Atlanta, Ga.: "It is a good tonic. I commend it for indigestion."

Judge Hopkins, Atlanta, Ga.: "It is the best water I know of in the world."

Hon. A. H. Pettibone (M. C.), Greenville, Tenn.: "In 1880, I was called suddenly to Ohio, to see, as was expected, a sister die. The two barrels of the water you sent her have cured her."

John T. Graves, Jacksonville, Fla.: "I regard the water at Tate as the most valuable mineral water on the continent. In the strength and variety of its mineral properties it is unsurpassed. For a disordered system it is a superb corrective and tonic restorer."

A. S. Shafer & Son (Mineral Water Depot), 49 N. Charles St., Baltimore, M. D.: "We have sold Tate Epsom water for three years, and are fully convinced of its medicinal value, especially as a water suitable for dyspepsia."

R. H. Jordan & Co., druggists, Charlotte, N. C.: "We have been selling Tate water for more than three years, and can safely say that it will keep perfectly in the barrel for several months, and is the most popular water we have ever sold for dyspepsia, etc."

S. F. Beaumont, (banker), 1883, Clarksville, Tenn.: "When Mrs. Beaumont first came to Tate she was but a shadow, and when she left, was strong and robust and gaining flesh every day. Since her return, she has continued the use of the water almost constantly, and now she rejoices in the health and strength of other years."

J. M. Hunt, M. D., Vicksburg, Miss. (a visitor in 1885): "In all cases of malaria, dyspepsia and nervous prostration, satisfactory results will be realized, by the use of this valuable Tate water."

Frank H. Murdock, M. D., Bradford, Pa.: "In dyspepsia, torpidity of the liver and constipation, and also a diuretic, I believe the water of Tate Spring, Tenn., to be a remedy of very great value."

John Ryan, Atlanta, Ga., Feb. 11, 1883: "I consider Tate Spring an excellent summer resort. The water is splendid. It heals the sick, invigorates the healthy, and enables a man to attend to his avocations with great facility."

Hon. W. C. Oates, (M. C.), Abbeville, Ala.: "The Tate water is the best mineral water I ever saw for dyspepsia, indigestion and torpid liver and kindred diseases. It loses less of its valuable properties in shipment and keeps in barrel better than any other water."

W. A. Willingham (of Willingham Lumber Co.), Chattanooga, Nov. 26, 1887: "It gives me much pleasure to state that having suffered from dyspepsia and constipation for five years and having suffered untold agonies from same, I have been greatly benefited by the use of the Tate Spring water, in fact the only water or treatment from which I have derived any benefit whatever. I must in this thank you and Mrs. Tomlinson for your kindness and hospitable treatment to myself and wife while with you. I shall always recommend Tate Spring as the best water in the world for constipation and indigestion."

College for 1893 which
please send to the under-
signed, and oblige.

Yours truly,
Robert Erd.

Princeton N.J. 5-6-93

Dr. E. M. Gallaudet
 Pres. Natl Inst for Deaf
 Washington D. C.

Dear Sir:— I have recently been in correspondence with Mr A. L. E. Crouter, of the Pa. Inst. concerning a Fellowship at your College for next year. This afternoon I called on him at Mt Airy and had a short interview with the result that he told me I might have the place and should write you for any further information. He gave me his card to enclose in this, saying he also would write you this evening concerning me and presumably will send you the references by which he satisfied himself as to my qualifications.

I may say in brief that I have made up my mind to accept the Fellowship and ask that you enroll me for it. My desire now is to learn a little more fully than Mr Crouter could tell me just what are to be the requirements etc. of the place. A catalogue would

and
 other mem.
 drawn.

probably answer most questions satisfactorily but I should like to ask more particularly about those who held the Fellowships recently; where they were mostly from; what is the nature and average value remuneration of the places they now hold; the difficulty of obtaining them and the probability of openings a year from now; for with me the question of becoming settled in a life work is of the greatest consideration. Also, of whom is the coming class composed and where are they from?

I take it that Mr Crouter will write fully concerning me so I need say nothing of myself, except to add, what he did not learn, that my age is twenty-four, I have taught school for one year in Kansas (besides a large amount of tutoring in Princeton during the past two years); my religious denomination is Presbyterian.

There is one thing more I shall venture to say though I hesitated much to speak of it. However it is best said plainly and is this. I have for a long time been engaged to marry a young lady. She is a sensible, intelligent young woman,

3.

twenty four years of age, a college graduate, a successful teacher in public schools (primary dept't) for four years, an earnest Christian worker and one who ~~de~~ would desire to identify her aims and work with my own. We had hoped to be married this fall if I should get a position. What I wish to ask is, Is there any possibility of my bringing her to Washington this fall as my wife, to receive a course of instruction similar to the one I would get. Are the Fellowships in question established for men exclusively, or is it possible for a woman to hold one and especially could one be obtained for her for the coming year. If not what other way might she take to get the course.

You will please to pardon the abruptness of the above but my only excuse in writing thus in my first letter to you is that Mr Crowter told me there was one more Fellowship still open and I wished to take time by the forelock.

Awaiting a reply at your early convenience I remain
yours respectfully
Frederick S. Elder

#37 S. Ed. Hall Princeton N.J.

Princeton N.J. 5-10-73
 Dr E. M. Gallaudet,
 Washington D. C.

Dear Sir: - Your letter recd
 this morning and must say it
 was quite a sore disappointment.

I write you now only in
 way of explanation to say that
 Mr Crouter did assure me of
 the Fellowship and that was
 the reason of the confident tone
 in which my letter was written.

He personally assured me of
 the position when I called and
 his ~~last~~ last letter which lies
 before me says. "Dr Gallaudet

sent me one of the Fellowships
 to fill - - - - - If after the receipt
 of this letter you feel you would
 like the place I shall take
 pleasure in sending your
 name to Pres Gallaudet for enrol-
 ment - - - - - Your references are
 satisfactory." (underscoring my own)

What more assurance
 need any one ask.

As to the matter of my marriage it could have waited rather than for me to have missed this.

In my own behalf I will now say that I have since found that Mr C never wrote to the persons whom I mentioned ^{to him} for references concerning me.

I have always been interested in this work. I have been all my life more or less associated with the deaf. My father was for some time one of the state board of Commissioners of the Iowa Inst for D. & D. And as for myself which Prof Crouter perhaps did not know - I have worked my own way, unaided, thro' Princeton College, have always been an honor man in the class and was in for a Fellowship here in Mathematics with a strong probability of winning it until I surrendered it with the expectation of taking this.

All these I realize are my own unsupported statements which I give for what they are worth and can verify at any time. The only reason I write you thus is to justify myself in your eyes, not with any idea of changing your decision but to tell you I think Mr Crouter wronged me in treating me as he did.

Very respy
Fredk S. Elder

Maryland School for the Deaf,

Frederick City, Md., June 14-1899

Dr. E. M. Gallavott-

Dear Sir,

We have three young men who have been preparing for entrance to the College, that is going through the course specified. Two of them wish to enter the other is doubtful. One of the two is perfectly able to pay his way; the other is too poor. His parents write him that he may go if he can go free. What can be done for him? This young man, Harry Beaman has I think a pretty good preparation & though he might be conditioned would be able to make up and hold his place. Fred Surman has not so good a preparation. John Miles the "doubtful" one could I think enter and hold his own. He too is poor

and would need what help can be
given - All are young men of excellent
characters -

Yours very truly

We have three young ladies, equal in
scholarship to the best of the young men
but they can not be expected to go
to the College -

Maryland School for the Deaf,

Frederick City, Md., Jan 18 1893

Mr. W. F. Fowler Supervisor

Dear Sir,

Your letter of inquiry in regard to John S. Clark of Down Del. was received. The boy is 18 years old, of small size, weak physically & mentally, has no bad habits.

The father J. S. Clark claims to have property in Caroline Co. Md. but that the boy lives with his grandfather in Down. I have not much confidence in the man's statements. He is profane in premises but has never paid a cent of the charges against him for articles of clothing &c. ^{The boy} He came as a state pupil free as to board & tuition. He was here six years & was classed at the time he left with year old pupils. I advised his father that he could not return here & that it would be better for him to stay

out of school a year at any rate - He had
two alarming attacks of illness in his
last two years - He is consumptive.

Yours very truly
Chas. Wiley

Maryate
19th June 1893

Private,

Dear Dr. Gallaudet,

I am much disappointed at my inability to accept your very kind invitation. I have not the good fortune to serve an enlightened body as a Committee, or they would have seen the advantage of having their Institution represented at so important a gathering. They did not see how I

Could be spared. It is
well to be indispensable -
or to be considered to be
so. when that is the real
reason - but I doubt whether
it might have been so in
this case. I am sorry
to say I have long suffered
from service under a
body which looks upon
the education of the deaf,
as a peculiarity which
should be the property
of the Deaf & Dumb Asylum
Old West Road. which
looks askance at any
other body engaged in
the same work, and which,
above all, considers the
interests of the Instⁿ it-
self as a charitable
institution as paramount.
I hate the principle, to

which I am in some degree
obliged to succumb, that
it is necessary to parade
the infirmities of the deaf,
to make them interesting
objects of pity, in order
to win support. and
then try as I will I cannot
get them to see the nature
of the work, the need for
education, and the extent
to which it should and
might be carried. To a
great extent I have indulged
a somewhat clearer view -
but every advance is
made in a grudging
spirit, and is looked
upon as a needless concession
to this unreasonable spirit
of the age, and to be as
far as possible, hampered,
by conditions which go far
to destroy its efficiency.
It is out of the absurdities

ENOCH PRATT, BALTIMORE,
PRESIDENT, BOARD OF VISITORS.

CHAS. W. ELY, M. A.
PRINCIPAL,

Maryland School for the Deaf,

Frederick City, Md., June 17 1893.

*And
acknowledged*

Prof A. S. Duper
Gen Ls.

I send you to day as directed
by Dr. Sullandet certain examination
papers - & by way of preface make the
following explanations.

I wrote Dr. S. on behalf of one of our
young men to know if he could have the
advantage of public funds for his support
in college - At the same time telling
him that three of our boys had been
pursuing preparatory studies & that I
thought two of them if they could select
would be able to hold their own

In reply he sent me examination papers
for the three. I had met the thought of holding
an examination here but supposed that
being so near they would be required

to present themselves in Washington for that purpose. The papers came on Sunday, and Monday morning the examination was begun & continued till finished. The candidates were unfavorable as school exercises were practically ended and the penitence that marks the closing days of the term was at its height.

The rules for conducting the examination were strictly observed the pupils having no assistance from books nor suggestions from teacher.

As the result I send only one set of papers that of Harry S. Beaman. I am satisfied that both Beaman & Miles would have done much better a week earlier when there was nothing to distract.

Beaman had not used a text-book in Grammar & the class had been too much pressed to review their Natural Philosophy.

Yours very truly
Chas. Wiley

Margate, England.

29th June 1893

Dear Dr. Gallaudet.

I have at length
finished a few observations
on the subject on which
if I had crossed over
to you I should have
spoken. If you think
they are worthy of pre-
sentation I shall be
glad for you to present
them to the Convention.
By the time this reaches
you, you will be
on your way to Chicago.
Apart from the Convention

I would much prefer to see the ordinary every-day work of both Country and schools, and this I hope I may do at some time. Exhibitions to a great extent are all alike and I have seen three or four of them with not very enthusiastic recollections of the rush and hurry and crowds that accompany them. So that you see not being able to see yours, the biggest of them all, I am somewhat consoling myself by mildly crying "sour grapes." My son, who came from Australia via America

spent a week in Chicago. He unfortunately sprained his knee on ship board, and that prevented him getting about well - otherwise I had asked him to go to Washington and call upon you.

I see our Bill is "Committed" in the House of Commons. I am doubtful however if this Session will witness its completion. The existence of the Govt. depending upon uncertain Irish votes is so insecure that any day may witness an eruption. Like the great majority of educated Englishmen, I am not in harmony with the

P. S. I am sorry I have not had time to make a fair copy of my paper enclosed. I was anxious to get it off.

Irish policy now brought forward mainly as it seems to us that one old man, eminent as he is, should be in power, but I hope they will accomplish the long-deferred act of justice to the deaf. There is no opposition to it and it only requires to go through the various necessary forms to become law.

I am approaching my 5 weeks vacation which I shall value. We think of going up to the English Lakes, a district containing very pretty scenery.

Next week I have a busy week - the Examination of the Teachers who present themselves for a Certificate.

Trusting you and your family are well as we are
I am,

Yours very sincerely,
Richard Elliott

Response to Dr. Gallaudet

Aug. 7th. 1893.

Dear Dr. Gallaudet -

I hardly know how to say what I feel that I must say to you in reply to your kind offer.

It seems to me as I consider in what direction my talents and inclinations lie that it will not be best for me to go into your work; that while I might

possibly have success
in it I should find
greater success and
so usefulness in some
other line.

I confess that it pains
me to write to you thus
because of your evident
earnestness in desiring
me to come to you. I feel
the delicacy of the compliment
which you paid me thus.

I want to thank you again
for your kindness to me and
to tell you that I shall be
better for having known you
and seen your earnestness
in your good work.

Kind regards to your daughter.
Very truly yours
Charles S. Ewing.

 Forman with

Watertown N.H. Sept 5, 1843
 To the President of the College.

Kendall Green W. C.
 Dear Sir,

Mr Forman member
 of Congress from Illinois who
 made Enquiries at the College
 informed me that my son
 Robert has passed a satisfactory
 Examination at the Illinois
 Institution for admission to
 your College, will you please
 let me know what further steps,
 if any are required to admit him
 at the next term.

Yours Respectfully
 J. M. C. Jr

Maryland School for the Deaf,

Confidential

Frederick City, Md., Sept 23 1893.

Dr. E. M. Gallaudet -

Dear Sir,

Your letter in regard to his-
man received. He was nine years a
pupil of Mr. Knapp in Baltimore, and
year with Mr. Greenberger and has
been five years here. Altho cannot re-
quest of his parents, I put him last year
on a course of study preparatory to
entrance to the College. While he did fairly,
considering his previous standing, he was
not able to pass the examinations. I so
wrote his parents, & told them that I
did not think he could do so with another
year of study; also that I did not think
he could go through with a college course.
I advised them to put him to work, but
suggested that he might be entered in
the Kendall School to continue his prepar-
atory work if they would in that way

be better satisfied than to take my advice.
The father is a wholesale liquor dealer and
old man - wants to keep the boy out of that
business. The boy has an easy disposition, is
not a leader but inclined to follow. He has
plenty of money but is not disposed to spend
it far or with others. As a pupil he needs to
be pushed all the time.

He is quite a good athlete, decidedly the
best we have had.

I do not wish to discourage your admitting
him to the Kendall School but feel sure he can
not enter the College at any time.

Yours very truly

Chas. Wiley

With the freedom allowed college students, learn-
ing would need careful attention to guard
him against temptation.

Maryland School for the Deaf,

Frederick City, Md., Sept. 25, 1893.

Dr. D. M. Gallwey -

Dear Sir,

Miss Emma Pope of this city -
the daughter of one of our best citizens,
wishes to obtain a fellowship in the
School for the Deaf if the way is open.

She will write you for information
and to present her case.

Miss Pope is a lady of pleasing accom-
plishments and of the right age to under-
take such a course of study. I should
like to see her succeed. I think she
would make a good use of her op-
portunities -

Yours very truly
Chas. W. Ely
