Mr E. M. Gallaudet

Dear Sir,

Your letter asking about Kull & Engelhardt, was duly received.

I wrote immediately to the parents of the boys to learn definitely about their going to Washington

Mr & Mrs Kull came here yesterday and have decided to get along without Anthony and to do all they can to help him. They will clothe him and pay his travelling expenses and buy all things necessary for him in Washington. They are honest industrious people & have nine children of whom Anthony is the oldest.

It was very hard for them to spare him, but they understand the value of an education especially to a deaf mute, and are determined to help him to it.

He will be at Washington D. C. at the opening of your fall term.

I have not yet heard from Mrs. Engelhardt. I know she is willing and anxious that Philip should go, but she is troubled for ways & means to fit him out.

I have written her that I will put her mute daughter now here on our indigent fund so that she may turn all her means to provide for Philip.

As soon as I hear from her I will write you.

Truly Yours

Mr. C. M. Galland:

Dear Sir:

We have been looking for a letter concerning our little boy Pheary ever since he left home the last time, but as yet have heard nothing from him.

You will please let me know immediately by way of a few lines, how he is getting along. We desire also, to know when he will be home. Enclosed you will find one dollar, for the payment of his fare home. If he is in need of any clothing, or any thing of that kind, if you let me know I will send more money.

Respectfully yours

Dear Sir,

The plans of primary building reached you I hope about the time your telegram was despatched. They were sent a day after the Gate & Fence plans through misapprehension of my instructions.

We now send, simply for your general consideration and criticism, a rough pencil plan for the improvement of the property. - It is desirable that the finished plan should be really what will be likely to be adopted and the study is therefore sent in this preliminary stage - please return it with comments and your instructions in regard to road at the side of the 200 feet. will it be sufficient to indicate it as likely to be opened

or must it be taken off the 200 feet
or should half of it be taken off - In
the finished plan either ~~place~~^{way} can be
shown as you think best.

In regard to the block plan of building
I do not consider the sketch, (either preliminary
or when again sent you with report)
as at all final. We give no special
study to this point just now as it
will come up later - but the general
grouping we have quite carefully gone
over and the result we send is the
best suggestion we have to offer, as
we at present understand your views
and intentions and the needs of the
Institution

Yours truly

Orf.

New Lexington, O., June 11 1866.

This may certify that we are personally acquainted with David McCarroll, of this County & vicinity, who desires admission into your Institution, for the purpose of more thoroughly qualifying himself for future usefulness. He has been deprived of the sense of hearing four or five years, is now about nineteen years of age, is of natural good parts, possesses a ready, active intellect, and has given evidence of rapid improvement in his studies during the two terms recently passed at the Deaf & Dumb Asylum at Columbus Ohio. We take pleasure in stating, that he is a young man of good morals, & diligent habits, & of an excellent disposition. He is a son of one of our most worthy, & intelligent citizens, who with the undersigned, will feel under grateful obligations, for your favorable consideration of this application.

Very truly & Respectfully
A. J. Hickman Probate Judge
George Pherson Treas
Ohio Dept County Auditor
W. G. Bucknor Recorder Perry Co
W. C. Hickman, Clerk C. P.

New Lexington Perry Co. O. June 11. 1818.
 Pres. C. M. Gallaudet;

Dear Sir:

I wish to obtain admission
 into your College next term.

I am almost nineteen years of
 age, and have been deaf since I
 was in my fourteenth year,

I attended school some before I
 became deaf - perhaps three or four
 years in all, and have since been
 at the Asylum at Columbus
 about fourteen months.

If you think I am a proper
 subject for instruction in the
 College, please inform me what
 books will be necessary for the first
 term, if not furnished by the College,
 and whether the entire tuition fee -
 including board - must be paid in advance.

Yours Respectfully,
 J. H. Carroll.

Dear Sir,

Yours of 11th is at hand. I hope the plans of primary building came to hand our Express was on 8th for these. on 7th for railings.

In regard to detail, we must of course adapt the design to available expenditure perhaps the cost maybe less than you anticipate. There is a minimum of material. The labor is however more careful in the iron work than in the railings I have seen in Washington in corresponding positions. Photograph gives a clear idea. - Will come at the end of next week if you think the general plan is sufficiently advanced. Study sent yesterday to you -

Yrs. truly
C. Vaux.

I have forgotten to make design about umbrella at house - will include in sketch of it & relieve your mind next time I write.

Baltimore June 16th 66

Dear friend,

The receipt of your letter of the 11^{inst} is acknowledged and I feel rather sad in noticing its contents. I feel exceedingly sorry to say that I have been put to much inconvenience & disadvantage under which I am laboring, as I received information from a gentleman in Washington, the other day, concerning something which has astounded me. I have been so much prejudiced & set in a false place by such reports which say that some of the students have expressed their suspicions that I had urged you to expel two of them who had insulted one of the fair students

some time ago & also that your Mother has made a fuss as to me by telling some of the Students & Pupils that I have abused ~~and~~ violated the rules of the Inst by corresponding with Miss Smith, & that I am unfit to conduct the services for the Deafmutes at the Chapel. I can hardly comprehend how I could have given the Students any cause to attack my character & reputation. I knew nothing of the particulars of the insult, till I was informed of it, to my surprise, when I called at the Inst last March.

I say I would decline to comment or criticise your Mother for whom I have always cherished my regard & respect. I really love those who dare admonish & correct me, if I commit any faults, instead of telling & magnifying of them to others. I despise to intimidate or make any

body fear me and despise those who give credence to unfavorable reports, unless they need confirmation. I never suffer myself to give credit in rumors, unless I ascertain them. I am not the person to be easily fooled & trifled with. I feel too proud to be pretensive & false to anybody & hate anybody who flatters & treats me falsely.

Complaints have been repeatedly annoying me so much. Several of the Mutes in the city have convinced me that some graduates & Pupils at your Inst, are in the habit of bearing false tales, which they have wonderful Talent for inventing, against them and are countenanced & connived by the Teachers & others who seem to have encouraged them to multiply untrue stories, instead of correcting & advising them or the Teachers & others may be thought

by the public to teach the pupils how to
tell lies & hear deceitful tales & they
may injure the interests of the Sust.
It is impossible for me to comprehend
how some of the pupils can take
great delight in playing mischievous
tricks & jokes upon others.
I dislike their intrusion and I fear, may
think that the teachers & others encourage
them as to their impolite behaviour
without thus it makes me feel so
much ashamed indeed.

For instance, two weeks ago, Aaron dare say that I often admonished
Haidenrich wrote a letter for Mr. ^{without your permission or knowledge} some of the graduates & pupils whose
Riley & directed it to Mr. Neuberger, & faults, they did & they disregarded
requested Mr. R. to answer direct themy admonition & behaved very
letter to Mr. Adams for him and conceitedly & impolitely towards me &
so did Mr. R. actually. Last Thurs. Dear friend I wish
summer Aaron expected a letter from you would impress upon the
my cousin Mollie who was in the countymind of the pupils, the importance
and expressed his suspicion that I advised regarding & attending the rules
her not to write to him, as he failed to receive etiquette & politeness which
any letters. Some of the pupils correspond they are unconsciously unsoach
with the female ones during the vacation, as you know that it is out
& some of the pupils invite their friends of my power to advise them, as
to stop at the houses of their parents they seldom go to the chapel
for any period of time, as their parents whenever they come to Balls

or they shall be brought to
more sense & meet the
consequences which they
deserve. I hope that they
will profit themselves better
by the admonition in future

I understand that there are two
white boys by the name of Coanby
living at Lapidum Hasford Co & their
parents wish them to be sent school to be
educated & their ages are 7 or 8 & 13. &
they have an older full grown white
sister who has an illegitimate child.
I was informed that Col Mc Allister
met a painful accident last Monday
morning & was thrown out of a buggy
which came in contact with the hub of the
wheel of a dray & his right knee was severely
injured & the little finger of his right hand was
fractured ^{the} was otherwise severely bruised

Dear Sir—

Feeling it my duty, while laboring under new & unlooked for discouragements, I take the liberty to again bring about a correspondence concerning the anticipated admission of myself to Mr. Ketchard to your faculty next fall. When I made application to you for a free scholarship, I did it with the spirit of sincerity, because "I wished to avail myself of such a promising opportunity for obtaining an education—the great object of all my exertions"; But as I am a semi-mute and yet but 18 years old and also know as much of common language as any person possessing all the natural endowments which were all my own but three short years ago, I find myself under other obligations than those of obiding by my word of honor which I owe you

I have the opportunity of becoming a teacher next fall in the Michigan Territory, and it is the wish of my teacher and a few friends that I should accept of the proffered situation, But to express my own feelings. I would ten times prefer going to school at your college. I owe implicit obedience to your school, and the wish expressed in my letter of acknowledgments to you on the receipt of your favor granting me a free admission to the school. My duty is here first because I first secured the free admission before I knew of any other plan being matured for my future. by my interested friends. I prefer going to school rather than teaching. To help the soul-dashed white would be a praiseworthy act of which I would gladly do; but I feel that I could help them more in a different way and do myself more justice. Men hardly forget their own interests in helping their less fortunate fellow creatures; and I have the same failing with the rest of mankind. There are plenty of teachers more competent than myself who could give classical instruction with greater effect than I can, and I would prefer that they should be teachers, while I could do my part in a less public way.

My class-mate, Miss Richard, a lady from Iowa, who is well known by one of your Corps of teachers, Mr. James, is very desirous of going to your school. I have told her that if I possibly did not go, I would give her my situation if she could gain your agreement to such an act. She is not very far advanced and cannot comprehend very well what is of a scientific nature. It would take at least one term of ten months in the preparatory class, before she could enter the freshman. She is near twenty-two years old, but of a good disposition and lady-like in her manners.

Now I write this letter expressly to know what you have to say in such an arrangement. Though I think you will require me to fill the situation you so generously gave me. I expect probably Miss Richard has wrote you a letter concerning the matter before this time. If so, please let me know in your reply, what she has to say about it. Please write soon that I may know what to abide by.

Yours truly

Dear Sir. I will try & arrange to suit your appointment. please propose one when convenient giving me a few days notice.

Mr. Vaux seems to fall in to the idea of a few days absence at Washington & on the R. R. very readily. I have an idea that it may be well to bring an assistant & push matters along on the spot as the present buildings must be an element requiring to be worked in carefully -

It is not as if there had been nothing done. An

regard to the ground plan for
improvement. I feel that it
commits me & commits you but
very generally and had better
be finished out of hand so
that I should prefer having
it returned & sent back to you
before taking up the other
matter but if you really
see any advantage in postponing
its completion of course you
will retain it.

Yours faithfully

 Dear Sir

I beg hereby
 to acknowledge the receipt of five
 copies of your Annual report for
 1865, for which favor please ac-
 cept my thanks. I trust you
 have before this received a
 copy of our report which I
 mailed about the 1st of Feb.

I am glad to see evidences in
 your report of increased popular
 favor & success in your experiment
 for advancing the cause of deaf mute
 instruction, & while I candidly
 admit that I have been doubtful
 of the practicability of carrying
 instruction to the point you
 deem attainable, I shall rejoice

in a success that removes my doubts. Of one thing however I am assured, that to render your College practicable, we must begin instruction earlier & continue it later. I have just secured, by a law reorganizing this State, thirteen years for every child who comes at six, that is, every pupil is entitled to seven years after he or she is twelve years of age, & they may come at six.

With kind regards to my old friend Fay, (whom I meant to have had here) & the highest personal consideration for yourself I remain
Cordially Yours
Warring Wilkinson

Dear Sir,

The time is drawing

very near for Frank to come home, I have
^{been} waiting very patiently to hear from you
concerning Frank, But we have not
heard from you yet. Our relation on
of ^{the} St. informed us that you would let
us know before ^{2 weeks} the vacation, or whether
I shall come down after him, or if you
will be kind enough to bring him down
to Baltimore, And if so please to send
him to Grays Inn creek, Wharf. We
will be glad if you can let us know
in time to meet him at the wharf, I would
rather he would not bring his trunk, it would
be less trouble to put them in a bag. We
will take care of the bag, and send it
home, or bring it when I come down.
We are all well, and hope you are the same.
Give our love to Frank, and hope we

I shall see him soon,
