## LET US STAND CORRECTED

In the November 10th issue of ON THE GREEN, we mentioned the establishment of

a twelve member student-faculty "Sign Language Proficiency Committee". It has been called to our attention that we were in error and that this is a nine member panel which will initially evaluate all faculty members and their use of simultaneous communication, not sign language alone.

## SANDERSON ON NTID ADVISORY GROUP

The National Technical Institute for the Deaf in Rochester, New York, has named Mr. Robert G. Sanderson, a graduate of Gallaudet, to serve as one of four newly appointed representatives from employment, rehabilitation, educational programming and legal counsel to its National Advisory Group. Mr. Sanderson, a doctoral candidate at Brigham Young University, is coordinator of the Division of Adult Education and Training Services to the Adult Deaf with the Utah State Board of Education. He is also the past president of the National Association of the Deaf. The National Advisory Group serves in an advisory capacity to NTID in all matters of growth and development.

#### AID TO HANDICAPPED CHILDREN

In view of the critical need for pre-school programs for the estimated one million preschool aged handicapped children in the United States, the Handicapped Children's Early Education Assistance Program has been set up within the Bureau of Education for the Handicapped, HEW.

The development of preschool programs for the mentally retarded, hard of hearing, deaf, speech impaired, visually handicapped, seriously emotionally disturbed, crippled or other health impaired has been inhibited by the paucity of model programs.

Under this program public and private non-profit organizations will be able to receive grants and contracts to develop high quality experimental programs applicable to a wide range of handicapping conditions and environmental areas. Each project will receive Federal support for a three year period.

#### NEWS FROM THE WHITE HOUSE CONFERENCE

The White House Conference on Aging has positively responded to the concerns of the deaf community and those who work with the deaf over their omission of the problems of the aged deaf from the Conference program. An aspect of deafness will be the topic of one of the three to five minute speeches scheduled for the opening general session. The Conference will convene this Sunday, November 28 at the Washington Hilton.

In addition, the written proceedings from the Columbus Ohio Conference will become part of the White House Conference's formal proceedings. This conference, chaired by Dr. Jerome Schein from New York University, was organized to make recommendations to the White House Conference on programs and needs of the aging deaf.

Without your letters urging action, the Conference would have very possibly once again neglected the problems of deafness.

ON THE GREEN is published for the members of the faculty and staff of Gallaudet College by the Alumni-Public Relations Office. Campus news is always welcome. Phone or TTY 3326.
