Dear Sir; - Political demands, ingratitude + cupidity here, coupled with evil effect of climate on my family make me wish to finally quit North Carolina + the South.

I would like to secure a position in a laboratory, or Health department where skill in bacteriology is needed. Can you help me in this matter?

I can do all kinds of bacteriological work + the most delicate microscopic manipulation. Have had much experience in bact. examination of soil, water + milk. Can furnish testimonials from Cornell + Chicago Univs. + from Dr. A. C. True + others at U.S. Dept. Agr. from Director of N.C. Expt. Sta.; State Commr Agr.; Secy. State Bd. Health. I read fluently Latin, German, French, Spanish + Italian. Have written a great deal for public.

I would prefer a position in District, but will go any where where climate is free from malaria + not too rugged.

P.S. - up to last Political revolution I got \$1500 here. now \$1200. - They wish me to take \$1000 which I am not willing to do. - Life is not worth that here!

My Dear Dr. Gallaudet:-

Mr. Yates has handed me a circular letter from you in regard to the examination of candidates for College. In the concluding paragraph of the letter I notice that candidates are allowed to take up and pass a part of the studies one year and the other part the next year. I did not send you the papers of all the pupils that I examined but the best four. I held back three - One or two of these three I think has passed some of the studies. I have the papers just as they were written at the examination

untampered with and if you will allow it I would like to send them to you and if any has passed that they be given credit.

This would greatly help me and the pupils concerned. One is Master Findlay Landon a Senii-Mute who has only one more year in school here and he is very anxious to pass the college examination and enter.

I regret deeply the Mr. Raven affair. I can not entirely blame him for his failure to report at Washington on time. He is a very smart young man and I feel quite sure he would make one of the leading students

of the college as he has made at this school. ^{should be} _{enter}

I shall be pleased to hear from you in regard to the examination papers I have on hand.

My dear Dr. Gallaudet:—

Your letter of 25th instant, is received. I am satisfied with the decision of the Faculty in regard to Master Landon's examination papers.

I regret the error in the Optic. I copied correct but the printer let slip the 7 that would have made the hundreds. I have already corrected the mistake. It will be in the next issue of the Optic. 3rd Nov

There seems to be a tendency on the part of some here to have this school changed to a Pure Oral school. The head articulation teacher is a disciple of the Northampton School and she had an assistant from the same school added this fall. Both are very pronounced in their opinion of Pure Oralism and it seems the Dept., is very much inclined

toward them. Our legislature meets in January and we will also have a new Governor then. I think an effort will be made to have our school rebuilt as an Oral School, and to be prepared to defend the Combined System should such an effort be made. I am trying to get up as much literature showing the advantage of the Combined System over that of the Pure Oral as I can and I desire you to send me whatever papers you can to help. I would like very much a copy of your paper "What is Speech worth to the Deaf?" also of Mr. Heidsieck's, "To What Experience has the Pure Oral Method Led," and any other that would help me. I also wish your confidential advise.

My opinion of the work of the Northampton head teacher ^{here} is, it has greatly retarded the progress of the ^{new} pupils. All the bright

little ones were taken charge of by her
last year and during the entire session
taught a number of the movements of
the vocal organ and they are ^{being carried} going over
the same thing now and she is sending
back one at a time to the sign classes.
The very dullst of the new pupils ^{of last year} were left
with the sign or manual teacher and they
are now able to write tolerably well and
do addition. Those who were taken by the
oral teacher last year and have ~~not~~ been
returned to the manual class this year
are not up to the dull ^{new} pupils who were
left with him the ^{manual} teacher at the opening of
school a month ago. It seems to me a
pity the Supt. should allow this but I
trust it is only a trial and will not
stand the test long.

Knowing you will assist me in
the matter and with best regards I am

Very truly yours

Dr. E. M. Gallaudet,

Washington, D. C.,

Dear Dr. Gallaudet,—

Enclosed you will find the receipt for the gift from your Sabbath School, £ 3-5-11, which came in today's Am. mail.

Perhaps nothing will show how acceptable it is better than to tell you that we were so near the end of our funds that I was contemplating disbanding the school, to make room for boarders in order to meet our living expenses. I doubt

770

if my Committee would have ~~consented~~, but they hardly realize how straitened I am. I don't always tell just how the accounts stand, for I dislike drawing too heavily on the sympathies of my friends here, who have helped me all they can already.

Usually a gift comes just as I begin to feel anxious, but I have never been quite so near the end of my bank account as now.

I should have taken steps to put my thought of disbanding into execution today, but this morning ^{another} a pupil returned and brought word that another one would come in a few days.

I felt rebuked for if God was inclining these pupils to return, He would surely provide the means to keep them. Before dinner the mail brought your letter with its enclosure.

Please pass on to the givers, me and all, my hearty thanks.

The gifts received since Jan. 1st have exceeded those of any other year, but the extra expenses incident to putting a new place in order have left us short. During next Jan. I must meet bills to the amount of \$500⁰⁰ Mexican, and I have nothing to meet them with; in fact almost nothing for our living expenses. Special prayer is being offered by the friends here that, while so many doors are closed just now to Christian work by the hostile attitude of the people, this one, little door that is left open need not be closed for want of funds.

Thanking you again for your timely gift and hoping that your interest may continue, I remain, dear Dr. Gallaudet,

Yours very truly,

Annetta T. Mills.

P.S. Since writing the above \$200⁰⁰ Mex. have been received fr. a friend who has recently visited the school. A. T. M.

Principal.

Winnipeg, Dec. 28th. 1900.

My Dear Dr. Gallaudet:-

Mr. Spruit of Illinois now, formerly of Iowa is after the Nebraska School superintendency and is desirous of aid from his various friends in the profession. You do not know him very well and I feel that you might naturally hesitate to endorse him in preference to Mr. Gillespie who I believe is also an applicant. I understand that he is not to be considered by the new Governor and that he is out of the race. I would not vouch for this statement however but if you would permit me to suggest that should you feel disposed to endorse Mr. Spruit on my recommendation that you would make him secondary to Mr. Gillespie, in the event that you have already endorsed or desire to endorse him, (Mr. G.).

Mr Spruit is in every way capable of filling the position and it will retain that Institution in the hands of a man friendly to the Combined System. I dont think there is any danger of him becoming an oral crank, in fact I would not ask your endorsement

*D. W. McDermid,
Principal.*

Winnipeg,

of him if I thought he would. He is and has always been a warm admirer of you and your college and I am sure that it would not be long until graduates of Nebraska would be seeking admission to Gallaudet if he were at the head of the Nebraska School. I feel more strongly than ever after your treatment at Paris that the Manualists should stand together and I assure you that I would not like to see an Oralistic superintendent in charge at Omaha. The matter is to be decided in two weeks and by the time this letter reaches you it might be too late to write. Would you therefore under the circumstances send a wire to Governor Flick, Lincoln Nebraska, if my suggestions meet your views.

With kind regards and best wishes for the new Century.

Yours Sincerely,

D. W. McDermid

MARYLAND SCHOOL FOR THE BLIND,
BALTIMORE, MD.F. D. MORRISON,
Superintendent.

Dec 29 1900

My dear Dr Gallaudet.

Several applications should be submitted to you within the next few days for admission to this school as w.s. beneficiaries. Sarah Taylor of Anacostia has been in the school for the past 3 or 4 weeks. but I have not yet received her Warrant from the Secretary of the Interior. The Child is totally blind and should have been in school several years ago. Edith Hibbs is a proper subject for this school. I investigated her Case yesterday. and told her Mother to take the Papers to you for your approval. There are several others in the District. but I do not know whether they will make application at this time.

Wishing you a happy & prosperous new year I am sincerely yours

F. D. Morrison

P.S.

I hope your Brother Dr Thomas is well I have not heard from him for some time.
