SPECIAL
CORRESPONDENT

My Dear Dr. Gallaudet:

At last I
have used the
information about
the Deaf & Dumb &
about your College
in particular.

The nature of
my book was so
changed that it
was impossible
for me to include
the subject therein.

you can spare showing
scenes in Gallaudet College.
Not the exterior of buildings,
but photos of the students,
at work or play.²

If you can do this, I
will be very appreciative, as
more than half of my
article is, of course, devoted
to the Gallaudet graduates.

2nd - I next wish to write
a story on the Blind Deaf Mutes
of the country. The Census
office says its report will
not be ready for some time.

I understand there are about
20 thousands afflicted in this
country. Do you know
how I can reach the best
source of information on this
subject? Sincerely yours,
Gilbert Willeke

Dear Sir

May I ask if you would kindly introduce me deaf pupils or one or two deaf ladies or gentlemen of good positions as private boarders. I have a nice house at Barnes as above on good soil and in a particularly healthy situation

I have had a large experience with the deaf and dumb whom I am well used to and able to teach.

I can supply excellent references and I may inform you incidentally that my Father, grandfather and great grandfather were the Principals at Old Kent Road Asylum whose name is well

known to most Principals of the deaf and dumb in America (including yourself) and who are probably interested in the language generally used by the deaf and dumb. My terms for board and giving and instruction for each pupil or adult boarder would be £3-3-0 a week which would include no extra of extra attendances and some of my staff should be required. I will give you any further information you may possibly require.

Yours faithfully,
James S. ...

Dear Sir

I am deiced by Miss Watson
to thank you very sincerely for
yr. kind letter received this morning
She says she would be very glad
if you could hear of any one to
suit her.

You are right to say that she
belonged to the Watson family of
Ald Kent Institution for the
deaf & dumb at. It was her
father, grandfathers and great
grandfathers who were Headmasters
of the said Institution.

The old deaf and dumb gentleman
who had lived with the Watson
family for 75 years was a first
cousin to the Duke of Fife
who married our King Edward's
eldest daughter. He died in

August last in 1903 aged
nearly 85. She was devoted to
him as if she was a daughter to
him. She is very fond of the deaf
and dumb and any one who
would like to stay with her from
the United States, will find her
a real friend.

She says she would much like
to read yr. annual report
about the Institution as she
is deeply interested to hear
about the deaf and dumb.

Again accept her thanks
for yr. courtesy in the matter
referred to.

Yours very faithfully

Dear Sir:

In reply to your letter of the 8th instant in which you complain of the excessive registering of the meter then in use at your Institution, I wish to say that we have been endeavoring to ascertain if the fault was in the meter.

We have in the last few days had the meter removed and a new one put in, having first the new meter tested by the U. S. Inspector to show its correctness, and the one removed tested by the Inspector to show its correctness, the Certificates for which are enclosed herewith for your information.

We think you will find that the discrepancy in the amounts of the consumption due to the meter removed in April 1903, failing to register the gas which passed through it.

Dear Sir:

In compliance with your request forwarded by Mr. Bailey, I have made a careful test of your New College 200 light meter, and find that it registers a little slow, but still complies with the law.

By reference to the records of this office, I find that on the complaint of the Washington Gas Light Co. a 200 light meter was removed from the Columbia Institution and tested April 21, 1903.

The results of this test are; at normal rate 14% slow, at $\frac{1}{3}$ normal rate - failed to register, at twice the normal rate, 18% slow.

Which means that this meter had a hole in the measuring bellows, thus allowing more gas to pass through than was registered. When only a few lights were burning, the

gas would pass without registering at all,
as shown by the second test - "failed to register."

If your gas bill for Dec. 1902. was
rendered from the statement of this
meter, I am not surprised to learn
that it was much less than the bill
for Dec. 1903. rendered on the statement
of the meter tested in this office today,
a report of which I am sending
you with this.

CORNELL UNIVERSITY
THE SCIENCE AND ART OF EDUCATION
CHARLES DEGARMO, PH.D.
GUY MONTROSE WHIPPLE, A.B., PH.D.

ITHACA, N. Y., February 23, 1904

Dear Sir :-

The Educational Department of this University is seeking to give adequate instruction to its students in regard to the education of Defectives and the Feeble-Minded. As at present outlined, the work begins with a preliminary course covering school hygiene, the commoner school diseases, scientific tests, defects of sight and hearing, etc., and then follows a course involving an historical, statistical and critical survey of the methods employed in the education of the blind, the deaf and dumb, the feeble-minded and abnormal children generally.

In connection with the latter course we propose to spend from one to two hundred dollars at once in augmenting the section of the University library covering the field. May I make bold to intrude upon your time and patience so far as to ask your assistance in the matter? Will you be so kind as to send, at your early convenience, a list of the books you consider desirable in that part of the field in which you are working? The list should include both books of a more general and popular character, such as might advantageously be recommended to students for outside reading, and also books of a more technical and scholarly nature for purposes of research by advanced students.

If you conduct any scientific or experimental tests upon your pupils, I should esteem it a favor to receive copies of blanks or other data showing the character of this work.

Yours very truly,

Dear friend, -

I have a sister who is now teaching in a public school, but as she is so anxious to become a teacher for the deaf, I thought it necessary that she should attend some normal school for this purpose first.

Do you think it is too late to make application to you now for admittance to the Normal class next year?

in this matter I would

My dear Dr. Gallaudet:-

For your very kind and cordial congratulations I thank you. The respect and good will of my professional brethren and friends are most grateful to me.

My term of office has not been brief, but it has been much shorter than yours, and than those of several other heads of schools. Time is pushing us on and there are not so many young men

coming up to take our places
as I wish there were. We
need more of that element.

I thank you also for
your good wishes. I have
stood the winter very well,
am in good condition now,

My Dear Dr. Gallaudet,

Last summer I wrote you re-
garding a lady cousin who wanted a
Normal Scholarship.

I was sorry to approach you with
the subject but some one had been
at her to go to Northampton, Mass, last
Fall and enter a school there. To keep
her away I spoke of your class. She then
concluded to wait this season out and
try you again since she was too late last
Fall. She may write you again, altho
I am told she is decided to go to North-
ampton. While our names are alike
we come from different families and
she is quite a different person than
myself. She has had every advantage
of city life and schooling and college
life.

She is an accomplished young lady, having carried off highest honor in several schools, and had the respect of all her teachers. I am sure she would be an honor to your college but if you have no room for her, she will, in all probabilities, enter Northampton this fall.

Your experience enables you to judge and I trust you will not allow me to encourage you in any way. My motive is to keep her from Northampton - that's all. That alone occasioned me to take up the matter.

Very Sincerely Yours

E. C. Myaud.

Hartford, Conn., April 20, 1904,

Dear Dr. Gallaudet:

The youngest daughter of Mr. Wm. L. Malton, one of our Directors, and whom I think you know, wishes to take normal training to prepare to teach the deaf. She applied at Northampton, but there were sixty applicants ahead of her. I have recommended that she go to the normal class in Gallaudet College. Can she be admitted to it in September next? If so, on what terms? How many normals do you take each year?

With kind regards

I am

On the morning of presentation day, I received note from Mr Whildin as he had learned it would not be necessary. saying he would not come to Washington. So the cap and gown were left on my hands.

Gentlemen:—

It is my desire to graduate from the College with the degree of Bachelor of Philosophy.

I have removed two of my conditions, one in Physics and the other in Logic, and am still conditioned in Geometry.

The lack of interest in Geometry, due to the poor start I made, caused by my suspension during my Freshman year, and neglect of duty, for which I am very sorry, have played a leading part in bringing on the result.

My pecuniary circumstances for the past College year have

Seem a burden to me, compelling me to use my time in earning ^{money} to defray my expenses. The present circumstances are against my trying to remove those conditions.

My Dear DR Gallaudet

Your's 23 rd received. I suppose your "putting my name down" will tend to stimulate my energies towards putting in an appearnce at St Louis but do not build on such a sandy foundation

I am sorry I could not meet you at Cambridge, glad as I was to get away from the detestable hole two weeks since

Your's Truly

Mr. G. W. Fowler,
Deaf Mute College, City,

Dear Mr. Fowler:-

Enclosed herewith we hand you vouchers for Feb.
which I trust you will find correct and satisfactory.

In looking over this voucher however, I find that you are
over-charged for 5 lbs. of Coffee on Feb. 8th. \$2 is our reg-
ular price (40¢ per lb.), but we want to make the price to your
Institution 33 1/3¢ per lb.. We therefore enclose credit voucher
herewith for 33¢ which will appear on your March account.

We would like to have your Mrs. Temple understand about this
price on the Coffee as she might otherwise think that we are too
dear.

Awaiting your further favors, we are,

Yours very truly,

Y/S

Dear Mr. Fowler:

We are in receipt of your kind favor of April 9th., enclosing check for \$261.14 in settlement of March account, for which please accept our thanks.

We appreciate this account very much and your orders from time to time through Mrs. Temple, will always have our very best attention and if we do not please you, both as to quality of goods and prices, as well as in our service, it will not be because we do not try.

Very sincerely yours,

y/c.

Dear Mr. Fowler:-

Your letter received. Mattie wrote Mrs. Yates concerning her needs and Mrs. Yates had failed to call my attention to the matter. She now informs me that the clothing is about ready to send and that she has written Mattie to that effect. Tell Mattie to write me if there is anything more she needs and we will send it to her.

I thank you for your good wishes, but we will not be able to see "daylight" until after the meeting of the Legislature in 1905.

With best wishes to you and the interest you represent, I am,

Yours very truly,

Frank B. Yates

Dear Mr. Fowler:-

Your letter received. You will please include the amount for expenses home for Mr. Hendricks and Miss Henderson, and oblige,

Superintendent.

Will try and send it soon. We are having a tough time of it. No money until the legislature meets. Could the college make an Exception and advance this amt. for us? There is no risk, only a wait — *Jan Fred Yates*

Dear Mr. Fowler:-

Inclosed please find my check for \$39.40. I have had to advance it myself and borrow to boot. But then it will all come back, I am sure, all save the interest ; this I must lose.

I thank you again for all your many kindnesses,

Your Friend,

Dear Sir, — Being very much interested
schools for defective classes, I shall be very much obliged to you
sending me your latest annual report; also for any informa-
tion about institutions preparing teachers for such classes.

Thanking you in advance
