PRWAD CONFRONTS PROBLEMS OF BLACK DEAF

A panel of four black and one white deaf persons -- all professionals in the fields of education or rehabilitation counseling -- addressed the April 11th afternoon session of the PRWAD conference about the plight of black deaf children and adults. This was the first time that such problems were acknowledged publicly.

The conference participants spent Monday and Tuesday in section meetings exploring 12 special areas of interest. At a separate general session, the conference heard a deaf student and a parent of a multi-handicapped deaf child talk about their frustrations with services they need.

At the closing banquet meeting, John D. Twinn, administrator of the Social and Rehabilitation Services of the Department of Health, Education, and Welfare, spoke of his responsibilities to help the handicapped person fulfill his potential for an independent life.

On Wednesday, the conference spent the day visiting Gallaudet College and concluded the program with a reception at the Edward Miner Gallaudet Home.

ON THE GREEN is published each week for the faculty and staff of Gallaudet College by the Office of Alumni and Public Relations. Campus news is always welcome. Phone 3326 or TTY 4233.
