Week-long celebration of university status underway; momentum builds toward convocation & homecoming

The countdown begins, the anticipation builds. On Friday, Oct. 24, it becomes official: Gallaudet University will be born.

Conferences, seminars, exhibits and receptions. Tournaments, pep rallies, dinners and dedications. Visiting dignitaries, alumni and well-wishers from around the world. The campus community has been gearing up for University Week for what seems to some like a lifetime—and this week it all comes to pass.

When faculty members begin the procession from Hall Memorial Building to the convocation in the Field House on Friday morning, the official ceremony marking Gallaudet's change in status will commence. Delegates, members of the Board of Trustees, President Emeritus Edward C. Merrill Jr., President Jerry C. Lee and keynote speaker Dr. John Silber will join the procession to the stage.

Dr. Silber, president of Boston University, will address Gallaudet faculty, students, alumni and staff plus representatives of 150 colleges and universities and numerous industries, federal and local government agencies, foreign embassies, national associations and schools for deaf people. Also present will be descendants of Thomas H. and Edward M. Gallaudet, Percival Hall and Walter Krug; donors and foundation representatives; members of the newly established National Commission on Education of the Deaf; legislators who worked on the Education of the Deaf Act of 1986; and members of the D.C. Community Relations Council.

Immediately after the convocation, Dr. and Mrs. Lee will participate in a ceremony with members of Delta Zeta Sorority at the main entrance to the campus, where the new sign will be unveiled: *Gallaudet University*.

Friday afternoon and evening activities include MSSD's homecoming football game against the Florida School for the Deaf at 3 p.m. at Hotchkiss Field; a University pep rally at 6 p.m. in the Field House; and the University homecoming pre-game bash in "Ole Jim" from 8 to midnight.

While the convocation will mark the formal, official change in Gallaudet's

status, Saturday's parade, homecoming game, post-game party and University gala will provide the opportunities for unabashed celebrating.

The parade, which will feature two bands and 27 different units, will start out the Brentwood Avenue gate of the campus at 11:30 a.m. The parade route will follow Mount Olivet Road to West Virginia Avenue to Florida Avenue, ending at the 8th Street gate on Florida Avenue. Parade watchers are advised that one of the best places to view the event is along West Virginia Avenue.

The District of Columbia's Kelly Miller Junior High School band, numbering 100 musicians, and Eastern High School band, with approximately 250 musicians, will perform in the parade. Also included will be Dr. Lee, Miss Deaf America and Gallaudet graduate Debbie Brennan, homecoming queens and courts from both Gallaudet and MSSD, cheerleaders, organizations and student body governments from both schools, the Bison mascot and six floats.

The floats, representing the freshman, sophomore, junior, senior, preparatory and Pre-College classes, will vie for a \$1,000 first prize and \$500 second prize. Judging will occur prior to the start of the parade, so the winning floats will be designated in the parade.

Saturday afternoon highlights include the homecoming game against the University of North Carolina Club-Chapel Hill and the post-game bash at "Ole Jim."

At the University gala beginning at 9 p.m. at the Hyatt Regency, the bands "Chesapeake" and "Split Decision" will provide music. More than 2,200 celebrants are expected to attend. Two students will serve as emcees, introducing Miss Deaf America and Miss Junior NAD and announcing the winning class of Spirit Week. There will be a toast to Gallaudet University, and Dr. and Mrs. Lee will lead off the traditional President's Dance.

And when things return to normal next week, we will be, in every way, Gallaudet University.

John Silber, president of Boston University since 1970, will be the keynote speaker at Friday's convocation marking Gallaudet's elevation to university status. Dr. Silber, a national spokesperson for higher education, is also a philosopher and writer on major issues.

Students assist Danville Chadbourne in creating artistic tribute to university

Texas sculptor/painter Danville Chadbourne will be working all week in the Ely Center Atrium on a piece destined to be a lasting tribute to Gallaudet. Assisting him in the work will be several Gallaudet art students who will create what Chadbourne terms "offerings" to the piece.

The students who will contribute to the work are Sharyl Mapp, Rodney Jamison, Thomasina Sai-Yee Seah and Andrea Canning.

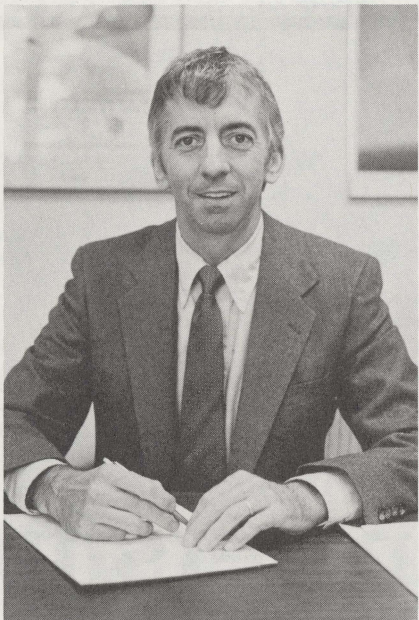

Chadbourne's creation will consist of four panels measuring 21 inches by 6 feet each. His materials will include wood, acrylics and ceramics. The theme of the piece is "basic communication," said Chadbourne.

When finished, the work will be on

exhibit through November at the Wallace Wentworth Gallery in Washington. It will then be returned for permanent exhibit at Gallaudet.

Chadbourne has had numerous one-man exhibitions since receiving his master's degree from Texas Tech University in 1973. His works have also been included in many selected group exhibitions, primarily in the Southwest, and are part of collections around the country.

His works, usually combining materials and forms in unexpected ways, have been described as "primal" and "evocative." Chadbourne's sculptures often reflect the influence of tribal art, appearing to be artifacts which have weathered the passage of time.

I. King Jordan, professor of psychology, was selected dean of the College of Arts and Sciences (CAS) last week. Dr. Jordan served as acting CAS dean since April. A 1970 Gallaudet graduate, Dr. Jordan joined the faculty in 1973. He holds master's and PhD degrees from the University of Tennessee.

Faculty, staff eye Texas-sized treat

Faculty and staff will be treated to an all-Texas barbecue menu Wednesday, Oct. 22 on Faculty Row beginning at 3:30 p.m. The menu includes chuck-wagon beef brisket, Lone Star pork and Four Flags fried chicken.

Entertainment will be provided by signing performers Tammy Jo Ellis, puppeteer; Arthur Gracianette, mime; Simon Carmel, magician; James Cagle, unicyclist/juggler; the Gallaudet Dance Company; MSSD Theatre Company and the Gallaudet Music Company. The program will also feature music by the D.C. Police Band.

A tent will be provided for tenderfeet, oil billionaires, Gene Autry fans, panhandlers and other guests who feel at home on the range a-jawin' and a-chompin' with fellow cattle rustlers.

Guests are urged to tread lightly on the new sod and watch out for armadillos, rattlesnakes and trail apples.

Published each Monday for staff and faculty of Gallaudet College by the Office of Alumni Relations and Advancement.

Gallaudet College is an equal opportunity employer/ education institution. Programs and services offered by Gallaudet College receive substantial financial support from the U.S. Department of Education.

Announcements

There will be no charge for admission to the Gallaudet homecoming football game against the University of North Carolina Chapel Hill Club on Oct. 25. Fans are asked to disregard a previous announcement about cost of tickets for the game.

The first of two Simultaneous Method evaluation sessions for this academic year are scheduled as follows: expressive evaluations, Oct. 27 to 31, and receptive evaluations, Nov. 3 to 6. Sign-up sheets are posted in the Faculty Orientation Office, LRC US-21. Faculty members are advised to reserve a 20-30 minute slot for the expressive portion and a 2-hour slot for the receptive portion. The next evaluations will be in February. For more information, call Roger Beach, x4518.

The Nova One Chapter of SHHH (Self Help for Hard of Hearing People, Inc.) is sponsoring an art show and auction Nov. 22 in McLean, Va. For ticket information, call Maureen Durkin, x5095.

Access to 'supercomputer' bolsters research efforts here

Gallaudet researchers now have access to a "supercomputer" which handles calculations nearly 700 times faster than the newest computers on campus.

Kevin Casey, director of Computer Services, recently obtained College access to the CRAY X-MP/48 at the San Diego Supercomputer Center (SDSC), one of five such centers supported by the National Science Foundation (NSF).

The grant permits experimental integration of large computer resources into the Gallaudet computer network. The fiber-optic links installed at Gallaudet this summer will permit access to such services from all major campus buildings.

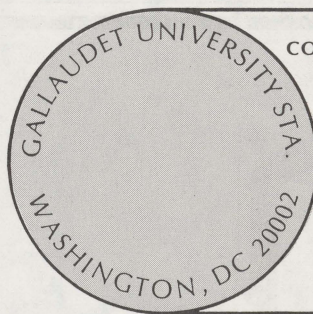

Research-oriented Gallaudet faculty and staff with qualifying projects in disciplines such as physics, statistics, audiology and economics requiring significant amounts of computational work are no longer restricted to using personal and VAX computers.

One example of how the supercomputer can benefit Gallaudet is current research on the perception of complex auditory stimuli by hearing impaired listeners. The memory size and speed of CRAY X-MP/48 permits using high-level language for developing and testing computer programs that use sophisticated algorithms for studying vowel transition cues. These cues contribute to the perception of consonants in speech. The determination of significant cues provides a basis for applying digital speech processing techniques.

The capability of the CRAY supercomputer can be understood by comparing its speed with IBM PCs and the VAX family of computers.

Speed is measured in millions of floating point operations per second (MFLOPS). According to ratings compiled at Argonne National Laboratories, an IBM PC operates at .01 MFLOPS, a VAX-11/785 at .20 and a VAX 8600 at .49. Gallaudet's new VAX 8650 operates at .74 MFLOPS.

A CRAY X-MP/48 supercomputer, however, will carry out calculations at a

Commemorative postal cancellation, envelopes available this week only

United States Postmaster General Preston R. Tisch has issued a special postal cancellation commemorating Gallaudet's transition from college to university.

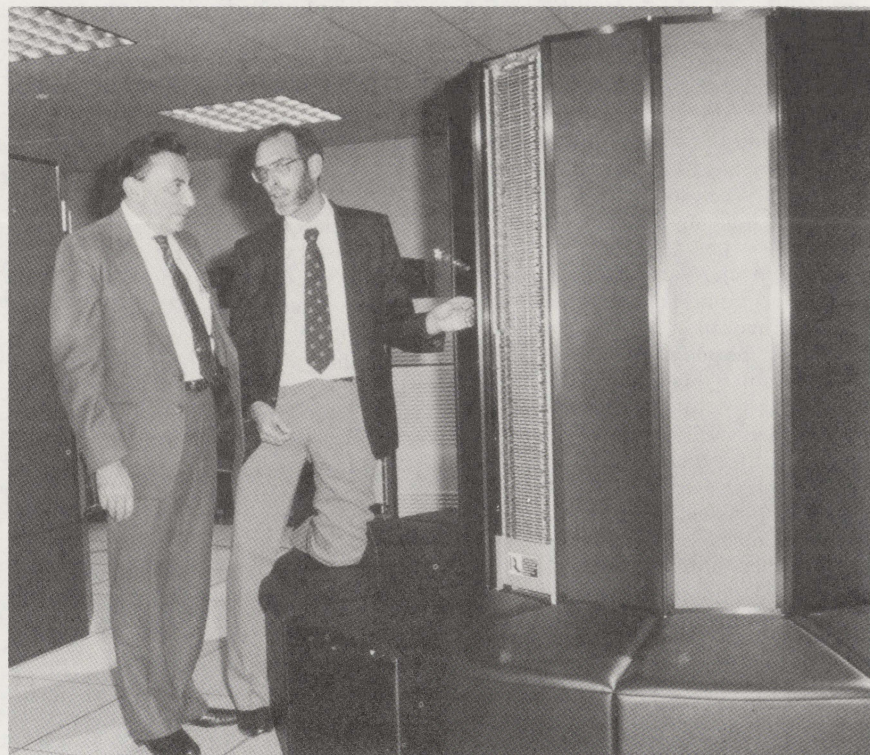

The Gallaudet College Alumni Association (GCAA) will sell special commemorative envelopes, and the U.S. Postal Service will have a temporary booth on campus to issue first-day covers this Friday and Saturday.

Both the GCAA booth offering the envelopes and the post office booth offering the special cancellation will be open on Friday from 1 to 5 p.m. in the Ely Center multipurpose room. On Saturday, the two booths will be

located near the football field and will be open from 11 a.m. to 4 p.m.

A limited number of two different envelopes will be available for \$1 each from the GCAA. One will feature a drawing of the statue of Thomas Hopkins Gallaudet with Alice Cogswell, and the other will carry the new Gallaudet University seal. Both envelopes are preprinted with a 22-cent buffalo stamp, chosen because of the resemblance to a bison, Gallaudet's mascot.

The special philatelic cancellation charts Gallaudet's name changes from the Columbia Institution for the Deaf in 1857 to Gallaudet University in 1986.

National Science Foundation Director Erich Bloch and computer expert Dr. Sid Karin examine the San Diego "supercomputer" which was recently made accessible to Gallaudet researchers working with especially large and complex data files.

rate reaching 480 MFLOPS, which is approximately 700 times faster than the VAX 8600, depending on the type of calculation performed and the amount of parallelism in the computational problem.

To date, Gallaudet researchers have had two paths to the San Diego-based CRAY computer: by long-distance telephone service and via the Remote User Access Center (RUAC) at the University of Maryland, which utilizes a VAX computer and a communication satellite link with SDSC.

A third and preferred path to the supercomputer is through the high-speed National Science Foundation Network (NSFnet). The NSFnet provides scientists with access to four other supercomputer centers in addition to San Diego.

The SDSC consortium includes the

California Institute of Technology, Salk Institute, Research Institute of Scripps Clinic, Stanford University, University of California at Los Angeles and the University of Maryland.

The five centers are funded by NSF for local scientific computing, access to computers, network development and research in computer design and the mathematics of computation.

A proposal recently submitted to NSF by Casey and David Snyder, associate professor of physics, requests support for access to NSFnet. The proposal includes funding to purchase communication software and to develop and implement introductory training programs on procedures for accessing supercomputer tools and resources.

A decision on this proposal is expected soon.

'Ole Jim' featured on U-Week poster

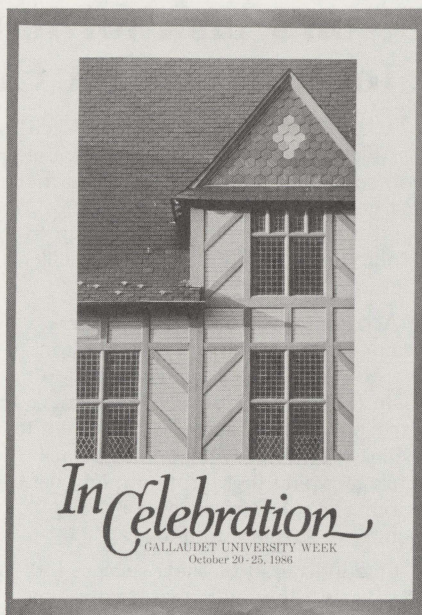

A special University Week poster created by Lovelyn Anderson of the Gallaudet College Press is on sale this week at the College Bookstore and at the press' exhibit Wednesday through Saturday in Chapel Hall.

The full-color poster, which features a striking photograph of "Ole Jim" taken by Washington-based photographer Jim Salmon, costs \$7.95. A limited number of framed posters will also be sold at the Chapel Hall exhibit.

Only 2,000 posters have been printed. Because there will be no reprinting, the poster may become a collector's item.

Patricia Hurt-Ritenburg, marketing manager for the press, said Salmon was asked to take "unusual angles, to have a fresh eye. We wanted a 'look again' photo for our annual catalog, one that would make people stop and look again to really understand what they were seeing."

Press staff people chose a different photo for the catalog cover, but the "Ole Jim" photo caught everyone's eye. "We knew we had a great photo,

but it wasn't the right one for our catalog cover," said Hurt-Ritenburg. "Someone on the staff said, 'Wouldn't that make a great poster?' We all agreed, and the poster idea was born."

The photo catches the warm hues and distinctive appearance of "Ole Jim" as the late afternoon sun creates shadows on the building's face.

Hall of Fame to honor Gallaudet sports heroes

The Gallaudet Athletic Hall of Fame, established this year to recognize the University's outstanding athletes, will open this Wednesday.

Opening ceremonies will begin at 1:30 p.m. in Ely Center Auditorium with the induction of John Ringle, a running back for Gallaudet during the 1928, 1929 and 1930 football seasons.

Among those scheduled to speak at the event are President Jerry C. Lee; Robert Westermann, director of athletics; Gerald Burstein, president of the Gallaudet University Alumni Association; and Gallaudet alumnus Art Kruger.

Immediately following Ringle's induction, there will be a dedication of the Hall of Fame exhibition room in the Field House. The dedication will include ribbon-cutting ceremonies and the unveiling of a photograph of Ringle taken during his years at Gallaudet.

According to Donald Padden, associate professor of physical educa-

tion and chair of the Hall of Fame committee, the committee's selection of Ringle was "unanimous—there was no doubt in their minds that he should be the first inductee. John's athletic record is one of the best in Gallaudet's history."

Choice of representatives completed for Faculty Senate, Collegiate Faculty

The following faculty members were selected as officers and representatives of the faculty in elections completed Oct. 6.

Officers of both Collegiate Faculty and Faculty Senate

H. Neil Reynolds, chair
William Marshall, vice chair
Nancy Kensicki, secretary

Members of the Faculty Senate

Jane Freiburg, Nelson Treece, James Madachy, Janet Pray, Marshall Wick, James Achtzehn, Donna Mertens, John Van Cleve, Stephen Lotterman, Terrence Coye, Gerald Daly, Diane Hotendorf, Rosemary Weller, Robert Williams and William Moses

Collegiate Faculty Committees and Councils (complete list, including continuing members)

Committee A (Faculty Welfare)
Mark Weinberg, Ronald Dreher, Florence Vold, Michael Moore, Catherine Moses, David Pancost and William McCrone

Committee C (Faculty-Student Affairs)
Kathryn Baldridge, Jean Mulrooney, Marilyn Sass-Lehrer, Agnes Padden and Janet Gemmill

Committee D (Nominations, Elections, Grievances)
Bruce White, Martin Noretzky, Barry Crouch, William Marshall, Diane Hotendorf, Nancy Kensicki and Jean Shickel

Sandler, Ingold, faculty panel to focus on conference topic of campus equity

"Agenda for Equity at Gallaudet" is the title of a University Week conference sponsored by the Department of Education to be held this Thursday from 2 to 5 p.m. in Ely Auditorium.

The guest speaker will be Bernice Sandler of the Association of American Colleges, executive director of that organization's Project on the Status and Education of Women since its inception in 1971. It is the nation's oldest project concerned with achieving equity for women students, faculty and administrators.

Dr. Sandler's presentation is entitled "Warming the Chilly Climate: A New Look at Equity." Also on the conference agenda are a videotape presentation, "Excellence in Teaching: Equity in the Classroom;" a faculty panel discussion on the Gallaudet experience; a lecture by Provost Catherine Ingold entitled "Promoting Equity at Gallaudet;" and a wine and cheese reception.

Faculty members serving on the panel will be Yerker Andersson, Marin Allen, Agnes Padden and Robert Johnson. The discussion will be moderated by Louise Cohen, assistant director of Gallaudet's Project PRO-CEED—"Promoting Classroom Equity and Excellence for Deaf Students"—a two-year project supported by a grant from the Women's Educational Equity Act.

Barbara Bodner-Johnson and Marilyn Sass-Lehrer, professors in the Department of Education and co-directors of Project PRO-CEED, will

present opening and concluding remarks.

Dr. Sandler worked previously as an education specialist for the U.S. House of Representatives' Special Subcommittee on Education. She was the first person appointed to the staff of a congressional committee to work specifically in the area of women's rights. She is an expert on Title IX and other laws prohibiting sex discrimination.

As former head of the Action Committee for Federal Contract Compliance of the Women's Equity Action League (WEAL), she filed formal charges of sex discrimination against more than 250 universities and colleges. She planned the strategy and spearheaded WEAL's national campaign to get existing executive orders enforced with regard to sex discrimination by universities and colleges that hold federal contracts.

Dr. Sandler has written more than 50 articles on sex discrimination.

Picture this: Snap your way to fame and glory

Because becoming a university is a once-in-a-lifetime event, many people will have their cameras at the ready during this special week.

The staff of *On the Green* and *Gallaudet Today* is interested in seeing any interesting photos taken of the celebration, for possible publication.

If you happen to be in the right place at the right time during University Week and you get what you think is a great photo, bring it to the OTG/VT office (Alumni Relations and Advancement) in Chapel Hall. There will be a small remuneration for photos chosen for publication, and photo credit will be given.

For more information, call OTG, x5100.

AAAD memorabilia to go on exhibit here

The campus community is invited to the opening ceremony of the American Athletic Association of the Deaf (AAAD) Hall of Fame Museum at 10 a.m. on Saturday, Oct. 25 in the east wing of Chapel Hall.

Featured will be memorabilia of important athletes and events collected by the AAAD over the years, including photographs, historical records dating to 1945, trophies and plaques.

Alex Fleischman, who started the Hall of Fame collection in 1951, will be the host for the ceremony. Art Kruger, a 1933 graduate of Gallaudet who is known as the "Father of the AAAD," will also be on hand. Kruger established the organization in 1945 and is one of the largest contributors to the collection.

Some of the athletes, leaders and coaches to be recognized in the Hall of Fame are John Kubis, Tom Berg, Noah Downs, S. Robey Burns, John Miller, Dick Caswell, Simon Carmel, Ed Carney, Fleischman and Kruger.

The AAAD, which has gathered memorabilia from basketball and slo-pitch baseball events, continues to look for donations to the collection. Anyone with items to contribute should contact Kruger, who volunteers in the Office of Alumni Relations and Advancement, x5061 (V/TDD).

Foreign language study conducted 'on location'

Two groups of Gallaudet students spent their fourth semester of foreign language study in native habitats last summer. Eight students traveled to Quebec and ten students went to Mexico.

The Quebec group was led by Louis Townsley, professor of foreign languages, and Donna Ryan, assistant professor of history.

"The shock of realizing that they had to speak or write French out of necessity was soon replaced by pride when these students learned that they really could communicate in French," said Dr. Townsley.

Michael Miller, professor of foreign languages, and Donald Ammons, assistant professor, accompanied the students who studied in Mexico.

According to Dr. Miller, "the students were very mature and responsible. They made the most of their experience by visiting Mexico City several times."

No, it's not an oversized trunk or a big freezer. Workers install parts of the synchronizing switching gear for two backup generators that supply emergency power for EMG and several nearby buildings.

Among Ourselves

Bernard Bragg, Gallaudet artist-in-residence; Simon Carmel, deaf folklorist; and Jack Gannon, executive director of Alumni Relations and Advancement, presented "See and Say with Lights and Music II," Oct. 12 in Westerville, Ohio. The production, a visual exploration of the communications, humor and literature of the deaf and hearing cultures, was cosponsored by Hand-In-Hand (hearing and deaf people working together) and the Ohio Humanities Council.

Robert Alexander, secretary in the Department of Educational Technology, recently completed his master's degree coursework in legal studies at Antioch Law Center. An article by Alexander, "The Law and Reasonable Accom-

modation of the Handicapped in Federal Employment: Focus on Deafness," will be published in the next issue of the *Journal of Rehabilitation of the Deaf*.

Sponsored R&D

The federal Office of Human Development Services (HDS) expects to award between 300 and 500 grants and cooperative agreements ranging from \$10,000 to \$200,000 during fiscal 1987.

The following is a list of education-related research priorities:

- Intergenerational Projects
- The Relationship of Child Maltreatment to Children's Social and Emotional Development and School Performance
- Aging Content in Professional Academic Training
- Minority Training and Development of Interns Serving the Elderly
- State Agency on Aging Collaboration with Other Agencies
- Child Abuse/Neglect Interdisciplinary Training
- Traineeship in Social Work
- Inservice training of Child Welfare Personnel
- Collaboration Between Schools and Agencies
- Transfer of International Innovations
- Orientation and Education for Elected Officials

Applications are due Dec. 15. Interested faculty are urged to apply as soon as possible, because only one application per project can be submitted. For more details, call the Office of Sponsored Programs, x5401.

Channel 33

Channel 33, the Gallaudet cable television channel, will air the following programs this week from 9 a.m. to 5 p.m.

9-9:30	Deaf Mosaic #207
9:30-10	Summertime Special
10-10:30	Deaf Mosaic #206
10:30-11	President's Forum
11-11:30	Deaf Mosaic #205
11:30-12	President's Forum
12-12:30	Deaf Mosaic #207
12:30-1	President's Forum
1-1:30	Success
1:30-2	Summertime Special
2-2:30	Beyond Sound: Deaf Awareness
2:30-3	Success
3-5	Gallaudet football vs. St. Peter's

The Oct. 11 Gallaudet football game against St. Peter's will be televised nightly at 7 p.m. through Thursday.

Bison's task for homecoming game: Stop high-speed Chapel Hill offense

A large crowd is expected at Hotchkiss Field this Saturday for the annual homecoming game. The Bison, in their first game as Gallaudet University, figure to be strong and fast enough to handle the talented UNC-Chapel Hill Club.

According to Coach Bob Westermann, the game may be decided on the ground. Chapel Hill is an option team that likes to run and possesses excellent speed. "To win, we'll have to establish an improved running attack while stopping their ground game with another tough performance by our defense," said Westermann.

One indication of likely success for the Bison Saturday is that a common opponent, the UNC-Wilmington Club, lost to Gallaudet 23-0 but defeated UNC-Chapel Hill 8-7.

Gallaudet evened its season record at 3-3 on Oct. 11 with a 22-16 win at home over St. Peter's College of Jersey City, N.J. The Bison built a 16-0 lead through three quarters of play and then struggled to hold off a fierce fourth-quarter rally by the

visitors. St. Peter's scored two TDs in the final seven minutes and was at the Bison three-yard line as time expired.

Gallaudet's winning margin was provided by fullback Robert Wilkins' 48-yard TD run with 3:12 left in the game. Wilkins rushed for a career high 185 yards. Andy Rosson kicked three field goals, including a 37-yarder. The defense forced seven turnovers.

Westermann called the win "a great team effort," adding that the season's first victory over a Division III team "has given the players confidence in their abilities."

Lotterman discusses play on WNTV show

Stephen Lotterman, associate professor of audiology, recently appeared on the Channel 56 (WNTV) program "The Green Room." Dr. Lotterman discussed an interpreted performance of "The Dining Room," a play currently being presented by the Trinity Players of Georgetown.

Jobs Available

Some of the advertised staff positions may already be filled. For updated information, call the JOB RECORDING in the Personnel Office, x5358 or x5359 (TDD).
