SPECIAL SERIES OF SIGN LANGUAGE TOURS OFFERED AT MUSEUM OF HISTORY AND TECHNOLOGY

Ever wonder about what happened to Bell's original telephone, Edison's phonograph, Ben Franklin's printing press and a gigantic statue of George Washington dressed in a Roman Toga?

A special sign language tour of highlights of the collections at the Museum of History and Technology introduces you to these and hundreds of other treasures under one roof in one of the country's most diversified collections of Americana.

The once-a-month Saturday tours, led by specially trained docents, last one hour and include a look into the parlors and kitchens of Americans to show how they lived in different periods, a look at a completely restored Revolutionary War gunboat and a tour of the country's finest collection of ship models.

To join the tour, go to the Flag Hall at the museum's second floor Mall entrance at 1:00 p.m. on March 3 and April 7.

For further information, the hearing impaired can call 381-4233 (TTY) or 381-4141 (voice) Monday through Friday, 9:00 a.m. to 4:00 p.m.

ENERGY TIPS FROM JIM HULL

"Picked up from Reader's Digest - When driving, keep the windows closed whenever possible. Open windows disturb the air flow around the vehicle with the effect of holding back the vehicle, similar to a head wind. A 10% saving in gasoline consumption is claimed.

"While we are discussing driving, Energy Secretary Schlesinger has written the nation's Governors to ensure strict enforcement of the 55 MPH limit. Don't be fuelish, the time you save won't pay your fine."
